## That's No Constellation...

### ANSWER KEY

First, find section C59 in the Esplanade. Amongst the bricks, Luke and Leia left a word on a specific brick to give you your starting point. The secret word, which was once a secret to even Luke and Leia, now you need to find the word that describes them amongst the bricks. Once you find their secret word on a brick, place the constellation overlay on the sector map. (Both included separately in this envelope.) Align the biggest star in the constellation on that particular brick.

Determine which bricks are represented in the rest of the constellation. Write down each star number that you find, i.e. C-123, C- 235, etc. Once you have all of the stars, you will consult the Sector Map. There you must find each star number, and write down the star's name. That name can then be unscrambled to form another word. (Do not use the biggest star in the constellation overlay; that is merely your anchor point for the map.) String together all of the unscrambled words, beginning with the lowest star value to the highest, and you will have the info you need to determine the planetary system where the Death Star is located.

Question: (300 points)

System name created with first three letters of juice store added with last five from beauty store

Answer: (100 points)

Jamphora

## What's In Your Wallet?

### ANSWER KEY

Help Kronk pick out appropriate gifts for his Squirrel Scout Troop. Look around the World of Disney Store, and find the items listed below and their price tags. The names and rules for each kid are:

- Samuel - Can only receive gifts with a price that ends in .95
- Jessica - Can only receive gifts with a price that ends in .49
- Zachary - Can only receive gifts that are priced between \$20-\$24.99
- Lisa - Can only receive gifts that are priced between \$25-\$30
- Kelly - Can only receive gifts that are priced under \$20 AND with a price that ends in .99

Ignore all taxes, sales, and possible discounts. (5 points each. 100 points total.)

# Everybody Wants To Be A Cat

## ANSWER KEY

As it turns out, the Cheshire Cat removed several faces in the photos of dignitaries and replaced them with his own face.

What you will find on the next pages are shots of those photos as they appear with the Cheshire Cat. You will you will need to go to the wall of photos in the lobby and determine the name of person he has covered.

Once you have determined the name, you will it write down in the blank graph sheet with the cat paw prints on it.

Start with the full name of #1 in the top left corner and fill in each square with the letters needed. Continue on moving left to right and then down a row from left to right again until you have filled in the titles. (Use full names and titles if applicable. If there is a "&," please spell out "AND." Do not use dashes or blank spaces. You may have left over letters.)

After you have filled in the titles, the question will be revealed by writing down the letters in the boxes where you see a paw print.

Question: (150 points) How many people are holding the spade?

Answer: (50 points) Three

## Plein Air Simple ANSWER KEY

Take the images of the Plein Air works that Rapunzel has Van Gogh-ized, and determine the name of the pieces by exploring the Grand Californian's public spaces. Rapunzel gave you ten different titles, but not all of the artwork has titles. Some of these are not right.

Once you find the real artwork that is represented on the images found here, determine if that original has a title included on the work. If it does, cross out the title found underneath the picture below. When you find all the artwork, and cross out the titles you found, you will use all of the remaining incorrect titles to solve the puzzle.

Starting with the first incorrect title (working from left to right, top to bottom) fill in the numbered spaces below by counting the appropriate number of letters. Cross off the letters as you use them. Continue counting (starting over at 1 on the next letter) and move through all the available titles to fill in the spaces. You may have to go through the titles several times, always crossing off the letters you use and always continuing from your last stop.
